## Obsolete Products Notice

### 1.0 Obsolete Products

**DSE9450** 48 V 50 A Intelligent Battery Charger (9450-01)**DSE9452** 24 V 50 A Intelligent Battery Charger (9452-01)

### 2.0 Replacement Products

#### Important Information

The **DSE9450-01** 48 V 50 A Intelligent Battery Charger and **DSE9452-01** 24 V 50 A Intelligent Battery Charger have been made obsolete with immediate effect.

DSE's intelligent battery charger range have been designed to be wired in series to achieve an increase in voltage or parallel to achieve an increase in current. Each charger can also be used as a stand-alone product.

This makes all DSE intelligent charger types suitable replacements for the **DSE9450** / **DSE9452** above. If you require any further information on our intelligent charger range, we would advise you to contact your Business Development Manager or our Sales Department ([sales@deepseaelectronics.com](mailto:sales@deepseaelectronics.com)), who will be happy to answer any questions you may have.

Alternatively you can view the intelligent chargers on our website.
