## Obsolete Product Notice

### 1.0 Obsolete Products

**DSE2541**Remote Battery Charger Display Module  
Part Number 2541-02

### Obsolete Product Information

The DSE2541 Remote Battery Charger Display Module has been made obsolete. There is no direct replacement for this product.

There is an opportunity for a last time buy.

Current stock levels = 390 units (11th Dec 2024). When stock runs out, no additional products will be manufactured.

### 2.0 Replacement Products

#### Replacement Product Information

There is no direct product replacement.

If you require a battery charger installation with an overview display, the BC2410Ei Enclosed Battery Charger may be suitable. Details of this product can be found [here](#). This product features a remote display but it forms part of the product and cannot be separated.

If you require further support with any of the above information, please contact your Area Sales Manager or our Sales Team ([sales@deepseaelectronics.com](mailto:sales@deepseaelectronics.com) / [usasales@deepseaelectronics.com](mailto:usasales@deepseaelectronics.com)), who will be happy to answer any questions.

Many Thanks,

**DSEMarketing.**
